SE PCY

Airworthiness Conference, EDA Brussels, Belgium

22-23 OCT09

Chairman
Col. Thomas Karlsson

Flight Safety Inspector
Swedish Armed Forces

European Military Airworthiness Conference (EMAC)

- The aim of the conference is to clarify the Swedish experience of Military System Worthiness and envisage further development in a wider European context.
- The conference is intended to encompass a wide spectrum of key System Worthiness stakeholders, from European Defence Agency, international organisations and EU industry representatives.
- The first day session – will be dedicated to briefings on the current status of military system worthiness in Sweden.
- The second day session – will be dedicated to the International Organisations including EDA MAWA Harmonisation effort
- The closing session provides the way ahead, merging key principles of **joint** European military airworthiness.
